

Storm Tribe Runes Crib sheet.

This font allows the easy insertion of Runes associated with the lesser Heortling gods from Storm Tribe with the exception of Chalana Arroy, who's runes are available on the Ernaldan Runes font. There are some Runes included where which are also part of the Orlanthi or Ernaldan runes sets, mainly for common subcults (ie Helamakt, Skovara) or where the same rune applies to completely different gods (ie the Murni subcult of Yinkin and Voria).

The font produces somewhat rough characters, but they look fine as part of a character sheet or text. They're probably not worth blowing up to 144 point for a display.
